

IMO MEETING

SDC

Overview

4th

Agenda

Sub-Committee on Ship Design and Construction 4th session, will be Held at IMO HQ from Monday, 13 to Friday, 17 February 2017.

This Sub-Committee addresses matters in relation to the Ship Design and Construction aspects.

Visit IMO Site for detailed Agenda.

Agenda 4

Computerized stability support for the master in case of flooding for existing passenger ships

Under this agenda, the requirement in SOLAS regulation II-1/8-1.3 regarding computerized stability support for the master in case of flooding will be discussed whether it should be applicable for existing passenger ships or not.

The IMO Agenda item listed and explained in this leaflet are part of which that the Society wishes to take a careful look into and would then might benefit for the Administration and the Stakeholder. For more Info, email : sta@bki.co.id

Agenda 5

Finalization of second generation intact stability criteria

This agenda will discuss the finalization of the draft explanatory notes for the second generation intact stability criteria. In addition, the criteria will be further considered to ensure their consistency results while being applied to new ships or existing ships.

Mandatory instrument and/or provisions addressing safety standards for the carriage of more than 12 industrial personnel on board vessels engaged on international voyages

MSC 96 agreed that for the long-term solution to address issues related to the carriage of more than 12 industrial personnel, there will be a new Chapter in SOLAS 1974 and a new mandatory Code. While for the short-term solution, MSC 97 issued Interim Recommendations on the Safe Carriage of more than 12 Industrial Personnel on Board Vessels Engaged on International Voyages (Res.MSC 418(97)).

Furthermore, following the outcome of MSC 97, SDC 4 are instructed to start the discussion on the mandatory instruments. This agenda will focus on the consideration of the draft mandatory Code of Safety for Ships Carrying more than 12 Industrial Personnel.

Agenda 8
