Message From Board of Commissioner

The year 2004 was the first year for the new Board of Commissioners of BKL.

In accordance with the Ministry of State Owned Enterprises standard, by the end of year 2004 BKL scored 97.50 for its managerial, financial, and administrative performance.

This score means that for the overall corporate performance BKL can be classified as "Good AAA" which was almost the same as previous years. The total amount of income and cost was more than Rp 105 billions and Rp 92 billions which resulted in after-tax profit of almost Rp 10 billions, or 108.64% from the budget.

Considering this success the Board hopes that the Management and all of its staff, either in the Head Office or Branches, should not be easily pleased with what had achieved, but keep up holding it and work harder and smarter for the sake of the Company's growth and glory in the future. The Board views that BKL's business and performance in the future would only be developed successfully with good team work and synergy between the Management and all employees, professionalism, sincerity and honesty in work, loyalty, and the spirit of togetherness.

Finally through this good opportunity, on behalf of the Board of Commissioners, I would like to extend my sincere gratitude to the previous Management, for what they had dedicated and contributed in managing and leading this Company in to success during their assignment period.

To the newly appointed Board of Directors, the Board would like to express its deepest thanks and hopes that this new Management would be able to meet all Stake Holders expectations and all BKL's staff and customers as well.

The Board would also like to honour and thank to the Share Holders, customers, and all related parties for all advices, support and reliance they given to BKL.

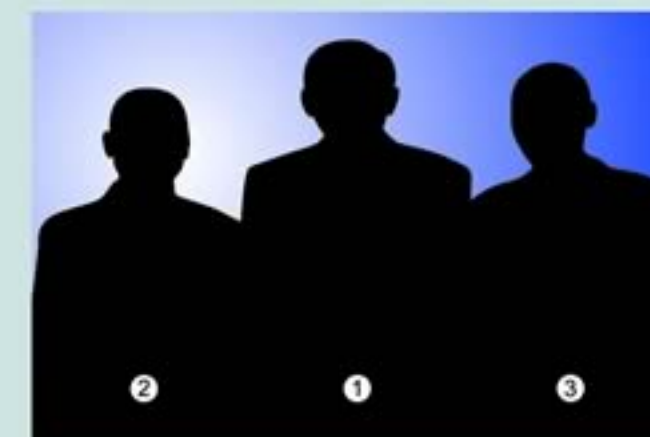

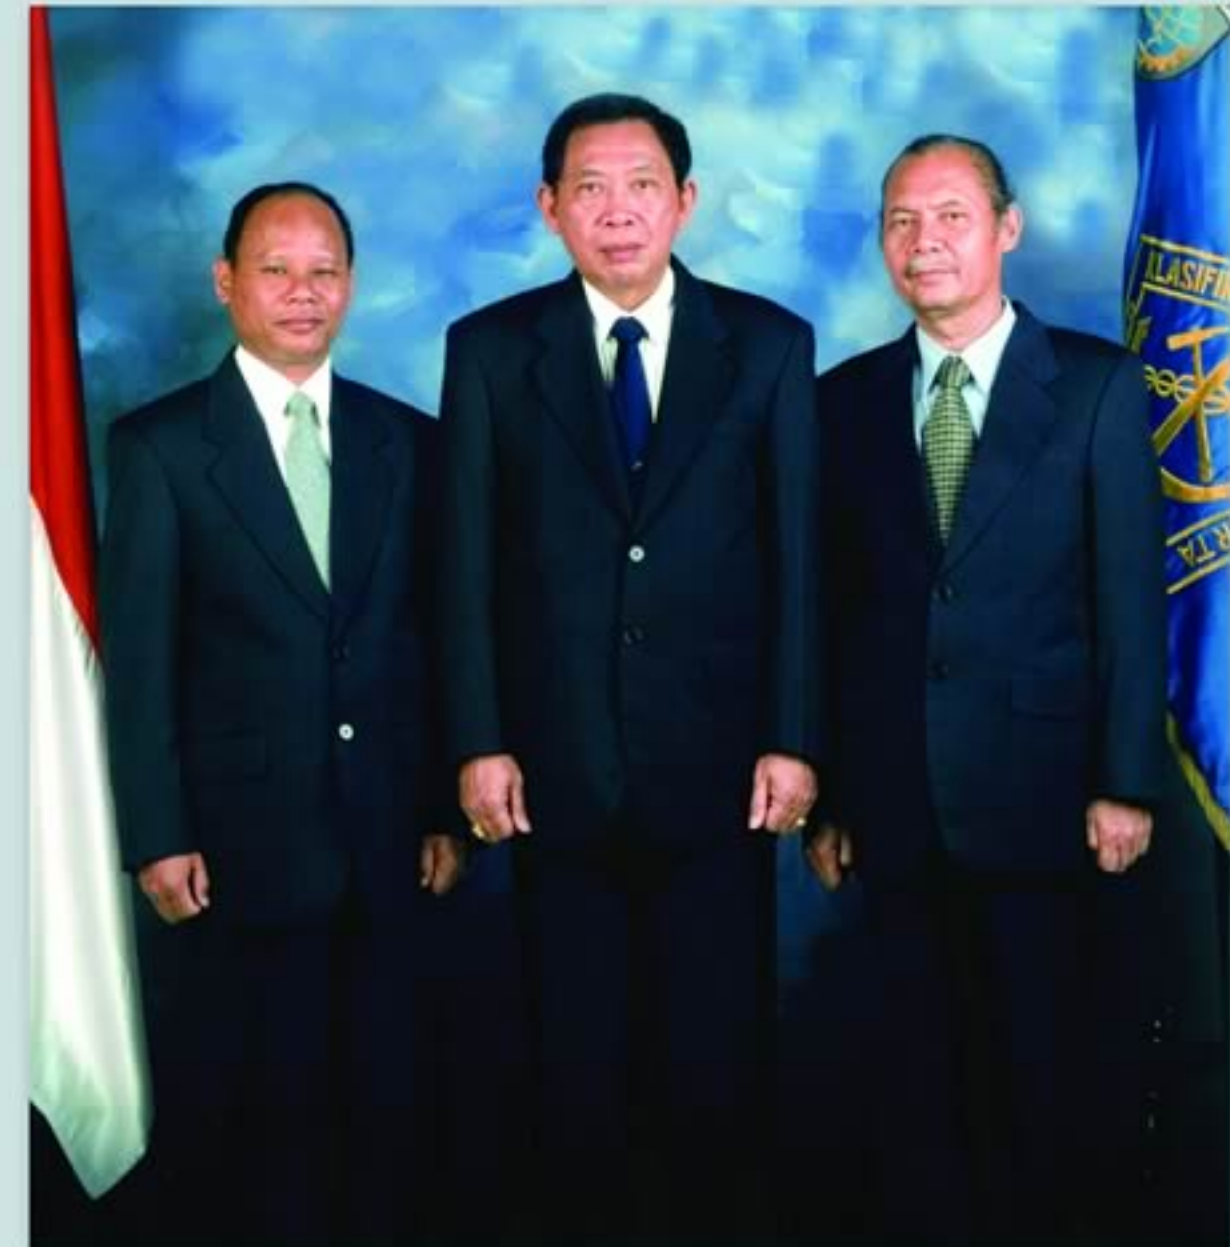

Hopefully, BKL's performance and success can be expanded in the future, in line with the national economic growth.

Chairman of the Board

Capt. Albert Lapien

Board Of Commissioner

1. CAPT. ALBERT LAPIAN
CHAIRMAN
2. BOEDIARSO TEGUH WIDODO
MEMBER
3. ACHMAD CHOTIBUDIN
MEMBER

Message From Board of Director

BKI entering the year 2004 with optimistic view and hopes that this year will bring better and more promising economic condition compared with the previous years.

This more conducive national economic condition also reflects positive hopes for the revival of Indonesia's shipping and maritime industries, which have experienced slowed down business within several past years.

Some significant matters had marked the Society's course in 2004, among others are the appointment of new Board of Directors and Head Office Senior Officials, organizational restructuring in the consultancy and supervision unit, the appointment as the recognized security organization (RSO) to perform security plan (ISPS-Code) approval and ISPS-Code audit for ship and port on behalf of Indonesia Government and the appointment as the storage tank inspection service company from the Ministry of Energy and Mineral Resources.

From the corporate managerial, financial and administration performance assessment side as concurrent with Ministry of State Owned Enterprise standards and the outcome of public accountant audit, again BKI successfully positioned it self in "Good AAA" category. The number of active classed ship also slightly increased from 6,302 units aggregating 6,466,276 GT in 2003 to 6,801 unit aggregating 6,989,109 GT in 2004. Significant production increased arose in consultancy and supervision segment, exceeding 97,000 man-days or 26% greater then last year's 77,000 man-days.

Finally, for what this Society has accomplished in 2004, there is nothing else but we have to thank God, for all success and even failures we experienced as good lessons to do better in the future years. On behalf of the Board of Directors, I would like to thank all BKI's personnels, who had fully supported management's policy and devoted themselves with great responsibility and dedication wherever they assigned. I am also very grateful and would like to extend my thanks and appreciation to all of my colleagues, the Board of Directors members who had accomplished their tough and complex jobs and responsibilities through the year 2004.

To conclude this message, on behalf of BKI's Management, I would like also to extend my gratitude and appreciation to those individuals, institution and organizations, especially to Board of Commissioners, for their support, assistance, and constructive critics to this society during the entire year. We do hope that those valuable support, advice, and critics will make us tougher and do better in coming years. May God bless us all!

President Director,

Muchtar Ali

Board of Director

Classification Activities

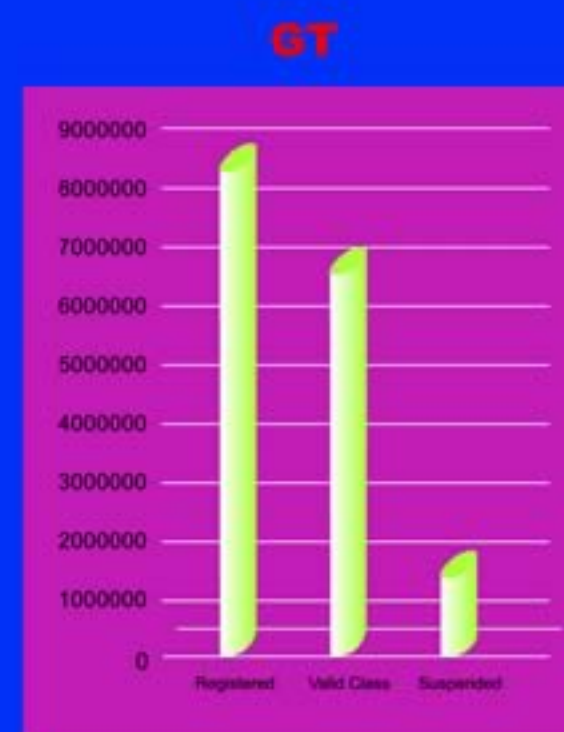

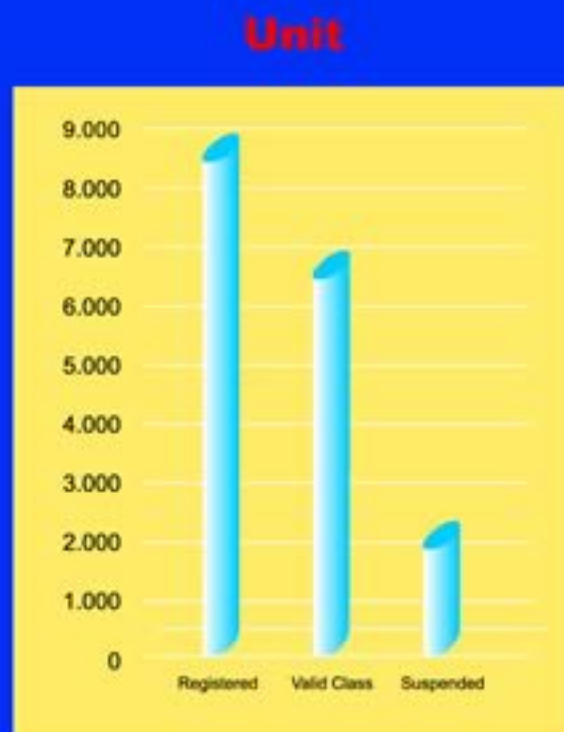

In 2004, BKI classed 320 ships, aggregating 400,100 gross tonnage showing an increasing of about 3,8 % compared to figure of 2003 and until December 2004 BKI valid classed ships in number are 6,801 units and 6,989,109 in gross tonnage.

Among the ships classed in 2004, a number of ships (GT) were newly built ships, constructed at various shipyards throughout Indonesia and aboard.

Number and gross tonnage of BKI Classed ships until December 2004, distribution of BKI classed ship by type and age including number of foreign flag ships in unit are shown in the following diagrams

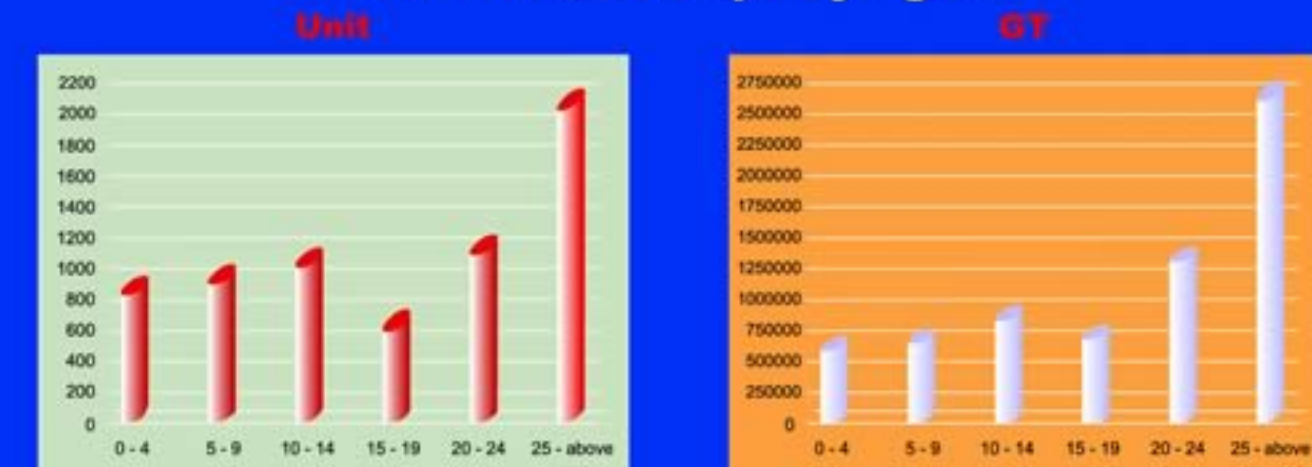

Tabel Classification Activities

Status	Unit	GT
Registered	8.799	8.431.325
Valid Classed	6.801	6.989.109
Suspended	1.998	1.442.216

Surveyor activity for scantling check of new building construction at one of shipyard in Batam.

Statutory Activities

ISM-Code Audit during 2003 :

No.	Verification	No. of Activities
1.	Initial verification for DOC	50
2.	Annual verification for DOC	95
3.	Renewal verification for DOC	24
4.	Occasional verification for DOC	42
5.	Initial verification for SMC	139
6.	Intermediate verification for SMC	81
7.	Renewal verification for SMC	107
8.	Occasional verification for SMC	167

Besides the above activities BKI issued interim certification in accordance with ISM-Code paragraph 14.1 and 14.2 as follows:

- 43 interim DOC issued
- 226 interim SMC issued

BKI also appointed as Recognized Security Organization (RSO) on behalf of Indonesian Government for Approval and Verification of ISPS – Code.

ISPS – Code verification during 2004 :

No.	Verification	No. of Activities
1.	Approval SSP	179
2.	Initial verification for ISPS (ISSC issued)	109

CSO/SSO training organized by BKI for shipping company & ship crews. On training, the attendances should carried out workgroup activity to prepare Ship Security Assessment (SSA)

Class room activity during CSO/SSO training for ISPS Code

Statutory Activities

One of the inspection item during ISPS Code Verification was security measur for access control to the ship

BKI auditor verified the Automatic Identification System (AIS) for compliance of the ISPS Code Requirement

Consultation and Supervision Activities

Consultation and Supervision Activities in 2004

Research and Development

One of the activities of the Research & Development is implementing the continuous development and updating of BKI Rules and Regulations.

To support the classification activities, BKI continuously develops and updates several rules and regulations in accordance with the latest development of technology and International Convention, IACS Blue Book, IMO-VEGA, ISO etc.

List of BKI register, rules and regulations are shown as below:

1. Register

1. Register of ship on Book and CD ROM
2. Supplements to Register Book published at intervals of approx. 3(three) months
3. Register ISM - Code
4. List of Approved Products and Approved Companies for Marine Service

2. Rules

1. Rules for Classification and Surveys
2. Peraturan Klasifikasi dan Survey
3. Rules for Hull Construction
4. Rules for Machinery Installations
5. Rules for Electrical Installations
6. Rules for Materials
7. Rules for Welding
8. Rules for Automation
9. Rules for Refrigerating Installations
10. Rules for Ships Carrying Liquefied Gases in Bulk
11. Rules for Ships Carrying Dangerous Chemicals in Bulk
12. Rules for Inland Waterway Vessels - Hull Construction
13. Rules for Inland Waterway Vessels - Machinery Installations
14. Rules for Inland Waterway Vessels - Electrical Installations
15. Rules for High Speed Vessels
16. Rules for Fiber Glass Reinforced Plastics Vessels
17. Peraturan Kapal Kayu
18. Rules for Mobile Offshore Drilling Units and Special Purpose Units
19. Rules for Stowage and Lashing of Containers
20. Rules for the Classification and Construction of High Speed Craft
21. Rules for Offshore Mooring Chains
22. Rules for Mooring and Loading Installations
23. Rules for the Classification and Construction of Offshore Installations
Volume 1: Rules for Classification and Surveys
24. Rules for the Classification and Construction of Offshore Installations
Volume 2: Rules for Structures
25. Rules for the Classification and Construction of Offshore Installations
Volume 3: Rules for Specific Type of Units and Equipment
26. Rules for the Classification and Construction of Offshore Installations
Volume 4: Rules for Machinery Installations
27. Rules for the Classification and Construction of Offshore Installations
Volume 5: Rules for Electrical Installation
28. Rules for Floating Docks
29. Rules for Fishing Vessels
30. Rules and Guidance for the Verification and Registration of Ship Security Management Systems

Research and Development

3. Regulations & Guidelines

1. Regulations for the Testing of Engines Produced in Series
2. Regulations for the Calculation of Diesel Engine Crankshaft
3. Regulations for the Seating of Diesel Engine Installations
4. Regulations for the Design, Construction and Testing of Pumps
5. Regulations for Equipment on Fire Fighting Ships
6. Regulations for Constructions, Equipment and Testing of Closed Fuel Overflow Systems
7. Regulations for the Installation and Ventilation of Storage Batteries and the Constructions of Battery Charges
8. Regulations for Electromagnetic Compatibility of Electrical Equipment
9. Regulations for Lighting
10. Regulations for Variable Frequency Ships Mains Operation (Variable Frequency Operation
11. Regulations for the Use of Computers and Computer Systems
12. Regulations for the Performance of Type Tests Part-1, Procedure
13. Regulations for the Performance of Type Tests Part-2, Test Requirements for Electrical/Electronic Equipment, Computer and Peripherals
14. Regulations for the Performance of Type Test Part-3, Test Requirements for Sealing Systems of Bulkhead and Deck Penetrations
15. Regulations for the Performance of Type Test Part-4, Test Requirements for Electrical Machinery
16. Regulations for the Performance of Type Test Part-5, Test Requirements for Mechanical Components and Equipment
17. Regulations for Mass Produced Engines
18. Regulations for the Construction and Survey of Lifting Appliances
19. Regulations for the Construction, Repair and Testing of Freight Containers
20. Regulations for Assessment and Repairs of Defects on Propellers
21. Regulations for the Construction and Testing of Towing Gears
22. Procedural Guideline for The ISM – Code
 - International Safety Management Code
 - Rules for the Verification and Registration of Safety Management Systems
 - Guidance for the Verification and Registration of Safety Management Systems
23. Regulations for Life Saving Launching Appliances
24. Guidelines for Ocean Towage
25. Guidelines for the Explosion Protection of Electrical Equipment
26. Guidelines for Sea Trials of Motor Vessels
27. Regulations for the Inspection of Anchor Chain Cables
28. Regulation for Redundant Propulsion and Steering Systems
29. Petunjuk Pengujian Kemiringan dan Periode Oleng Kapal
30. Regulation for the Classification and Construction of Fibre Reinforced Plastic Workboat
31. Regulation for Ventilation System on board Seagoing Ships
32. Regulation for the Corrosion Protection and Coating Systems
33. Pemeliharaan Kapal sesuai dengan Peraturan Nasional Internasional
34. Regulations for the Corrosion Protection and Coating Systems
35. Regulation for the Bridge Design on Seagoing Ships one man Console
36. Guidelines for the Carriage of Refrigerated Containers on Board Ships

Training and courses held during 2004 :

- Pressure Vessels and Boilers Training
- ISM – Code Course (Lead Auditor)
- ISPS – Code Course
- ISO 9000:2000 Series Training
- Maritime Security Auditor
- Quality Auditor
- Crane Inspector
- Storage Tank Inspector
- Pressure Vessel Inspector (Directorate General Oil & Gas)
- Pressure Safety Valve Inspector (Directorate General Oil & Gas)
- Welding Inspector Course
- Radiography Expert
- Radiography Operator
- Sea Survival
- Occupational Health & Safety
- Environmental Impact Feasibility
- NDT Level I
- NDT Level II
- Casing & Tubing Inspector
- Offshore Pipeline Inspector
- Welding Inspector Course – AWS
- Surveyor Training at GL Head Office
- Orientation Training in Singapore
- Electrical Appliances Training in Japan
- Corrosion Inspector
- Cathodic Protection
- Radiography Film Interpreter

The Board of Commissioners witnessed the signing ceremony of official note on transfer of duty to the BKI's newly appointed Board of Directors in April 2004.

Based on the existed agreement and cooperation, representatives from Lloyd Register Fairplay and TUV Rheinland Asia-Pacific visited BKI to discussed possibilities in encouraging further collaboration between two parties.

Indonesian Classification Consultancy Committee plenary meeting has appointed the new executive board and making strategic decisions to support the Society's duties and roles in classification service.

To support Government program in improving local community welfare, BKI organized some community development programs e.g. donating welfare package, aids for small scale business enterprise and scholarship.

In house maritime security training held in BKI Head Office for ISPS - Code
